

Sundeep Reddy is a seasoned IT professional and cybersecurity expert with a strong business acumen. He holds an MBA degree and has extensive experience in managing and owning an IT company specializing in IAM (Identity and Access Management) and cybersecurity solutions. With a passion for technology and a deep understanding of the ever-evolving threat landscape, Sundeep is committed to providing cutting-edge solutions to protect businesses from cyber threats.

Professional Experience:

- Founder and Owner, Idnor Technologies Inc (2022-present):
 - Established and currently manage a successful IT company specializing in IAM and cybersecurity services.
 - Lead business strategy, sales, and marketing efforts to expand the client base and achieve revenue growth.
 - Develop and maintain relationships with key clients, ensuring their cybersecurity needs are met effectively.
 - Oversee project management, ensuring the successful delivery of IAM and cybersecurity solutions.
 - Stay up to date with industry trends and emerging technologies to ensure the company remains at the forefront of the field.

- Founder and Partner: SmartGen Software Solutions Pvt. Ltd.
 - The company is a dynamic solutions provider that addresses the needs of both technology and business requirements to help organizations leverage cutting-edge technologies for business improvement. Products and solutions include SAP, PeopleSoft, and Oracle services. The company takes a highly collaborative, client-centric approach to consulting, granting quick access to data throughout the company, which improves financial insight and helps clients make more money, cut expenses, and run their businesses more profitably.

- Owner, Haan Systems LLC (2018-Present):
 - Provided cybersecurity consulting and Staffing services to clients across various industries.
 - Conducted risk assessments, vulnerability assessments, and penetration testing to identify security gaps.
 - Assisted clients in implementing IAM solutions and ensuring compliance with industry regulations.

- IAM Consultant, S4 Consultants Inc (2006-2022):
 - Conducted security assessments and audits to identify vulnerabilities and recommend remediation measures.
 - Implement IAM solutions (SailPoint, Ping, Radiant Logic, CyberArk, Okta, Saviyant).
 - Build customizations to map customer business process to automate user lifecycle.
 - Configured Role based access control.
